DETAILED ACTION***Allowable Subject Matter***

1. Claims 1-5 and 7-10 are allowed. The following is an examiner's statement of reasons for allowance: Examiner notes that Applicant has that the allowable language of previously presented claim 6 have been incorporated into independent claim 1.

**FIG. I.**

2. Kissel (U.S. 4,746,113) teaches a weight stack having a weight selector plate with a plurality of pins equal to the total number of incremental weights. Kissel fails to teach a rotatable selector plate with pins disposed at a different radial distance from the center of the selector plate, and each of the slots of the incremental weights disposed at a different radial distance from the center of the selector plate.

3. The prior art of record fails to teach the device as pictured

including an incremental weight stack made up of a plurality of weights each defining a slot, a selector plate (130) having a plurality of pins disposed at different radial distances on the plate where each pin corresponds to a specific one of the incremental weight slots, and where the selector plate is rotatable in order to allow a user to select the amount incremental weight desired.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
